Form ADV Part 2A – Firm Brochure

(404) 907-0070

Dated January 12, 2023

This Brochure provides information about the qualifications and business practices of FivePoints Financial Planning LLC dba VetWorth, "VW". If you have any questions about the contents of this Brochure, please contact us at (404) 907 -0070. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

FivePoints Financial Planning LLC dba VetWorth is registered as an Investment advisor with the State of Georgia. Registration of an Investment advisor does not imply any level of skill or training. Additional information about VW is available on the SEC's website at www.advisorinfo.sec.gov, which can be found using the firm's identification number 307007.

Item 2: Material Changes

Updated Item 5 to reflect VW may choose to waive financial planning fees and implement investment advisory fees for clients whose assets under management (AUM) exceed \$250,000. The fee will be a flat fee and paid on a monthly or quarterly basis, in advance.

Item 4: Advisory Business

Description of Advisory Firm

FivePoints Financial Planning LLC dba VetWorth is registered as an Investment advisor with the State of Georgia. We were founded in August 2019. Andrew Langdon is the principal owner of VW. VW currently reports \$71,014 discretionary and \$441,112 non-discretionary Assets Under Management as of December 2022.

FivePoints Financial Planning LLC dba VetWorth is a fee-only, independent firm that specializes in providing personalized, holistic, and tax-focused financial planning on a retainer model. We agree to restrict our compensation solely and exclusively to the professional fees we receive directly from our clients. We do not accept any sales commissions, referral fees or other forms of compensation from any third parties. We do not have any relationships with any brokerage, insurance, or mutual fund company. We are a fiduciary to our clients and are under an obligation to always act in the client's best interest.

Types of Advisory Services

Comprehensive Financial Planning Package

Our Comprehensive Financial Planning Package includes both investment management services and ongoing comprehensive financial planning. The investment management services and ongoing comprehensive financial planning services are provided together under our Comprehensive Financial Planning Package for a fixed-fee as described in Item 5. Clients may choose to engage in ongoing comprehensive financial planning without receiving investment management services from us; however, the fee for our Comprehensive Financial Planning Package will apply.

Investment Management Services

VW offers Investment Management Services as part of our Comprehensive Financial Planning Package. We do not require clients to move assets under our management. Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background.

Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. Fees pertaining to this service are outlined in Item 5 of this brochure.

Ongoing Comprehensive Financial Planning

VW offers ongoing comprehensive financial planning services as part of our Comprehensive Financial Planning Package. The client agrees to an ongoing relationship with VW as their trusted guide in the financial areas of their life. This service involves working one-on-one with a planner over an extended period of time. By paying a fixed monthly or quarterly fee, Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

During the **Initial Year** there are a number of client-relevant meeting topics to discuss (see list below). Typically, topics are covered via a modular basis, and are planned according to the clients' priorities. If requested, the number of topic discussions can be reduced by combining several topics in a longer discussion. Discussions and meetings can be held face to face or via secure computer link or telephone. Implementation services are provided as needed.

- | | |
|-----------------------------|--------------------------------|
| -Tax Planning | -Estate Planning Review |
| -Budgeting & cash flow | -Investment Selection |
| -Goal Setting | -Small Business Planning |
| -Student loan analysis | -Insurance Analysis |
| -Inventory of client assets | -Education Planning |
| -Retirement Planning | -Analysis of Employee Benefits |
| -Portfolio Analysis | -Develop asset allocation |

In **Renewal Years** the number of meeting topics is typically 3-4, and will depend on what is appropriate for the client:

- | | |
|-----------------------------|---------------------------|
| -Tax Planning | -Investment Review/Update |
| -Cash Flow/Student Loans | -Rebalancing of Assets |
| -Education/College Planning | -Insurance Review |

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our Clients. However, specific Client financial plans and their implementation are dependent upon the Client Investment Policy Statement which outlines each Client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a Client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients are able to specify, within reason, any limitations they would like to place on discretionary authority as it pertains to individual securities and/or sectors that will be traded in their account, by notating these items on the executed advisory agreement.

Wrap Fee Programs

We do not participate in wrap fee programs.

Tax Preparation & Planning:

Our services do not include tax preparation, unless otherwise agreed to in the client agreement, however, we may refer you to a trusted third-party provider for tax preparation when requested. In these cases, you will sign an information sharing authorization form to enable us to work with tax preparers/planners on your behalf in order for us to effectively facilitate the engagement when needed. The fees for tax preparation are not paid to our firm and are billed directly by the provider. We do NOT receive any referral or solicitation fees in exchange for you working with any provider that we recommend.

Item 5: Fees and Compensation

Please note, unless a Client has received the firm's Disclosure Brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the Client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

Comprehensive Financial Planning Package:

Our Comprehensive Financial Planning Package, which includes both investment management and ongoing comprehensive financial planning, may consist of an upfront fee of between \$500-\$2,000, at the discretion of the advisor, followed by an annual fixed-fee, paid either monthly or quarterly. Clients may choose to engage in ongoing comprehensive financial planning without receiving investment management services from us; however, the fee for our Comprehensive Financial Planning Package will apply.

VW's fees are charged on a fixed fee basis and are based on the scope, size, and complexity of services provided to the client and will vary depending on a number of factors, including but not limited to income, net worth, business interests, and complexity. The minimum annual fee for this service is \$3,300 per year.

At the discretion of advisor, when client assets under management (AUM) exceed \$250,000, financial planning fees may be waived and fees will be calculated based on assets under management (AUM). In this case, investment advisory fees are negotiable but will not exceed 3% annually. Though investment advisory fees will be based on a percentage of assets under management, the fee will be agreed upon, memorialized in the client agreement, and paid on a flat fee basis. For example, a client with \$500,000 in assets under management (AUM) with a 1% annual AUM fee would pay \$416.67/month or \$1250/quarter. Investment advisory fees will be directly debited from client accounts on a monthly or quarterly basis, in advance.

The fee is negotiable and may be adjusted depending on increased complexity and/or the Client's specific financial situation. Initial fees are clearly stated in the client agreement. Every year VW may recalculate the fixed-fee and may increase or decrease as income, complexity, and/or net

worth increase or decrease. Fee changes will only take effect once the client indicates their acceptance in writing. VW reserves the right to increase fees using a cost-of living adjustment, which will be clearly stated in the client agreement.

Fees are invoiced and may be paid by check or using a mutually agreeable method (EFT, credit card, online platform, etc.). Fees are due monthly or quarterly, in advance. Alternatively, at the discretion of the client, fees may be debited directly from the Clients' account by the custodian upon submission of an invoice to the custodian indicating the account number and amount of fees to be paid. In situations where the client chooses to have fees debited directly from their investment accounts, fees are billed monthly or quarterly, in advance, meaning that the firm invoices the client at the beginning of every month or quarter. The fee is normally deducted from a designated client account directly by the account's custodian upon VW's instruction. If a client has more than one account, the fee may be pro-rated between the accounts or deducted from individual accounts as determined by VW to be in the client's best interests. The client must consent in advance to direct debiting/deduction of their account(s) these fees will be paid quarterly, in advance. First month/quarter fees may be prorated based upon remaining days within the quarter. In no event will VW collect more than \$500 more than six months in advance from any client. Any prepaid but unearned fees will be refunded based on the time remaining in the billing period.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealerships for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

If we utilize the services of a trusted third-party provider for student loan analysis, such as Student Loan Planner® consultants, VW may cover a portion or all of the costs associated. If these services are provided but not covered (which will be determined prior to engaging in the relationship and stated in the client agreement), client assumes responsibility for payment of these services and will be billed directly.

Tax Preparation fees incurred by working with trusted third-party providers are not paid by our firm and are billed directly by the provider to the client.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning, investment management services, and tax planning services to individuals, families & trusts, businesses and estates, with an emphasis for those in the veterinary community. Client relationships vary in scope and length of service.

We do not have a minimum account size requirement.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Academic research has long shown that the choice of an asset allocation is the single most important factor in determining portfolio results – that is, the reward received for the risk taken. This phenomenon becomes even stronger over time. VW sees the asset allocation decision as the most critical aspect of investing. With the preponderance and rapid proliferation of investment information, VW further believes:

- Public capital markets are generally efficiently priced and
- Future market performance is inherently unpredictable.

These beliefs lead us, primarily, to employ passive investment management strategies. Passive investing involves building portfolios that are comprised of various distinct asset classes. The asset classes are weighted in a manner to achieve a desired relationship between correlation, risk and return. In contrast, with active management, a manager employs some method, strategy or technique to construct a portfolio intended to generate returns greater than a designated benchmark. Academic research indicates that the vast majority of active managers underperform the market, especially as the investment time horizon lengthens.

To reduce volatility – the commonly accepted definition of risk – given the market's unpredictability, VW suggests diversification across many dimensions including asset classes, geographies, market capitalization, and, if appropriate, liquidity premiums. We pay particular attention to investment expenses, transaction fees and brokerage commissions the client will incur. Our strategies and investments may have unique and significant tax implications which inform the choice of account type (taxable, tax-deferred, or tax-exempt) for various types of investments. This aspect of investment planning often is termed asset location. As most of our

clients are taxable investors, tax efficiency is an important but not the sole consideration in an investment plan.

In summary, VW typically recommends low-cost, tax efficient mutual funds and ETFs (exchange-traded funds) to build broadly diversified portfolios with asset classes spanning the global equity and fixed income markets.

Our primary method of investment analysis is Fundamental analysis.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The advisor has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds: When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

VW and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

VW and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

VW and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of VW or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No VW employee is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No VW employee is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

VW does not have any related parties. As a result, we do not have a relationship with any related parties.

VW only receives compensation directly from Clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

Andrew Langdon is currently a licensed insurance agent, however, he no longer sells any insurance products, and is not affiliated with any insurance companies. Andrew Langdon will not sell any insurance products to clients or prospective clients of VW.

VW may recommend the services of StudentLoanPlanner™, a third-party student loan consultant. VW receives no compensation or any other incentives for recommending this provider.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to Clients.
- Competence - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.

- Confidentiality - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matter shall reflect the credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, advisor to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its "related persons" may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates' transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

Trading Securities At/Around the Same Time as Client's Securities

From time to time, our firm or its "related persons" may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of VW to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, VW will never engage in trading that operates to the client's disadvantage if representatives of VW buy or sell securities at or around the same time as clients.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

FivePoints Financial Planning LLC dba VetWorth does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

1. Research and Other Soft-Dollar Benefits

We currently do not receive soft dollar benefits.

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transaction and this may cost Clients money over using a lower-cost custodian.

How we select brokers/custodians

We seek to recommend a custodian/broker that will hold your assets and execute transactions on terms that are overall most advantageous when compared with other available providers and their services. We consider a wide range of factors, including:

- Combination of transaction execution services and asset custody services (generally without a separate fee for custody)
- Capability to execute, clear, and settle trades (buy and sell securities for your account)
- Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.)
- Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds (ETFs), etc.)
- Availability of investment research and tools that assist us in making investment decisions
- Quality of services
- Competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate the prices
- Reputation, financial strength, security and stability
- Prior service to us and our clients
- Availability of other products and services that benefit us, as discussed below (see "Products and services available to us from Schwab")

The Custodian and Brokers We Use (Charles Schwab & Co and/or Altruist)

The custodian and brokers we use maintain custody of your assets that we manage, although we may be deemed to have limited custody of your assets due to our ability to withdraw fees from your account (see Item 15 – Custody, below). We may recommend that our clients use Charles Schwab & Co., Inc. ("Schwab"), a registered broker-dealer, member SIPC, as the qualified custodian. We are independently owned and operated and are not affiliated with Schwab. Schwab

will hold your assets in a brokerage account and buy and sell securities when we instruct them to. While we recommend that you use Schwab as custodian broker, you will decide whether to do so and will open your account with Schwab by entering into an account agreement directly with them. We do not open the account for you, although we may assist you in doing so. Even though your account is maintained at Schwab, we can still use other brokers to execute trades for your account as described below (see “Your brokerage and custody costs”)

For the benefit of no commissions or transaction fees, fully digital account opening, a large variety of security options and complete integration with software tools, VW may recommend Altruist Financial LLC, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the introducing broker to Apex Clearing Corporation, an unaffiliated SEC registered broker dealer and FINRA/SIPC member, as the clients' custodian. VW does not receive any research or other soft-dollar benefit by nature from its relationship with Altruist Financial LLC. VW does not receive any referrals in exchange for using Altruist Financial LLC as a broker dealer.

Aggregating (Block) Trading for Multiple Client Accounts

Investment advisors may elect to purchase or sell the same securities for several clients at approximately the same time when they believe such action may prove advantageous to clients. This process is referred to as aggregating orders, batch trading or block trading. We do not engage in block trading. It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy is to implement all client orders on an individual basis. Therefore, we do not aggregate or “block” client transactions. Considering the types of investments we hold in advisory client accounts, we do not believe clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy.

Item 13: Review of Accounts

Andrew Langdon, President and CCO of VW, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our financial planning services. VW may provide specific reports to clients at discretion of the advisor.

Andrew Langdon conducts reviews and makes recommendations with comprehensive financial planning package clients. These reviews are done periodically throughout the term of the engagement or when requested by the client.

Other conditions that may trigger a review include, but are not limited to: a large movement in asset markets, price movement of a specific security or group of securities, a change in the client's financial/life circumstances, delivery of or request for securities or cash, a request from the client for a special review that might be tied to the market, a corporate action for a specific security or overall concern.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

If you have opened and maintained an investment account on your own or with our assistance, you will receive account statements sent directly from mutual fund companies, transfer agents, custodians or brokerage companies where your investments are held. At VW's discretion, we may provide annual portfolio statement and position performance summary reports, and annual realized gains/loss reports for taxable accounts. Some of our clients may receive additional reports depending on their specific requirements. All performance reports will be prepared in accordance with the appropriate statute or jurisdictional guidance. Clients are urged to carefully review and compare account statements that they have received directly from their service provider with any report received from our firm.

VW may, at the discretion of the advisor, provide written reports to Investment Advisory Clients.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

Item 15: Custody

VW does not accept custody of Client funds except in the instance of withdrawing Client fees.

For Client accounts in which VW directly debits their advisory fee:

- i. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.
- ii. The Client will provide written authorization to VW, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

Discretionary & Non-Discretionary Trading:

VW offers investment advisory services on both a discretionary and non-discretionary basis. For client accounts managed on a discretionary basis, we maintain discretion over client accounts with respect to securities to be bought and sold, the amount of securities to be bought and sold, and VW will not give advance notice or seek the Client's consent for any changes to the Portfolio. For client accounts managed on a non-discretionary basis, VW will give advance notice or seek the Client's consent for any changes to the Portfolio.

Investment discretion is explained to clients in detail when an advisory relationship has commenced. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the client.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment advisors are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.

Item 19: Requirements for State-Registered Advisors

Andrew Langdon

Born: 1987

Professional Designations, Licensing & Exams

CFP (Certified Financial Planner)®: The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real-world circumstances;

- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board's *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Professional Designations, Licensing & Exams

CFP (Certified Financial Planner)®: The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real-world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*. The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.
